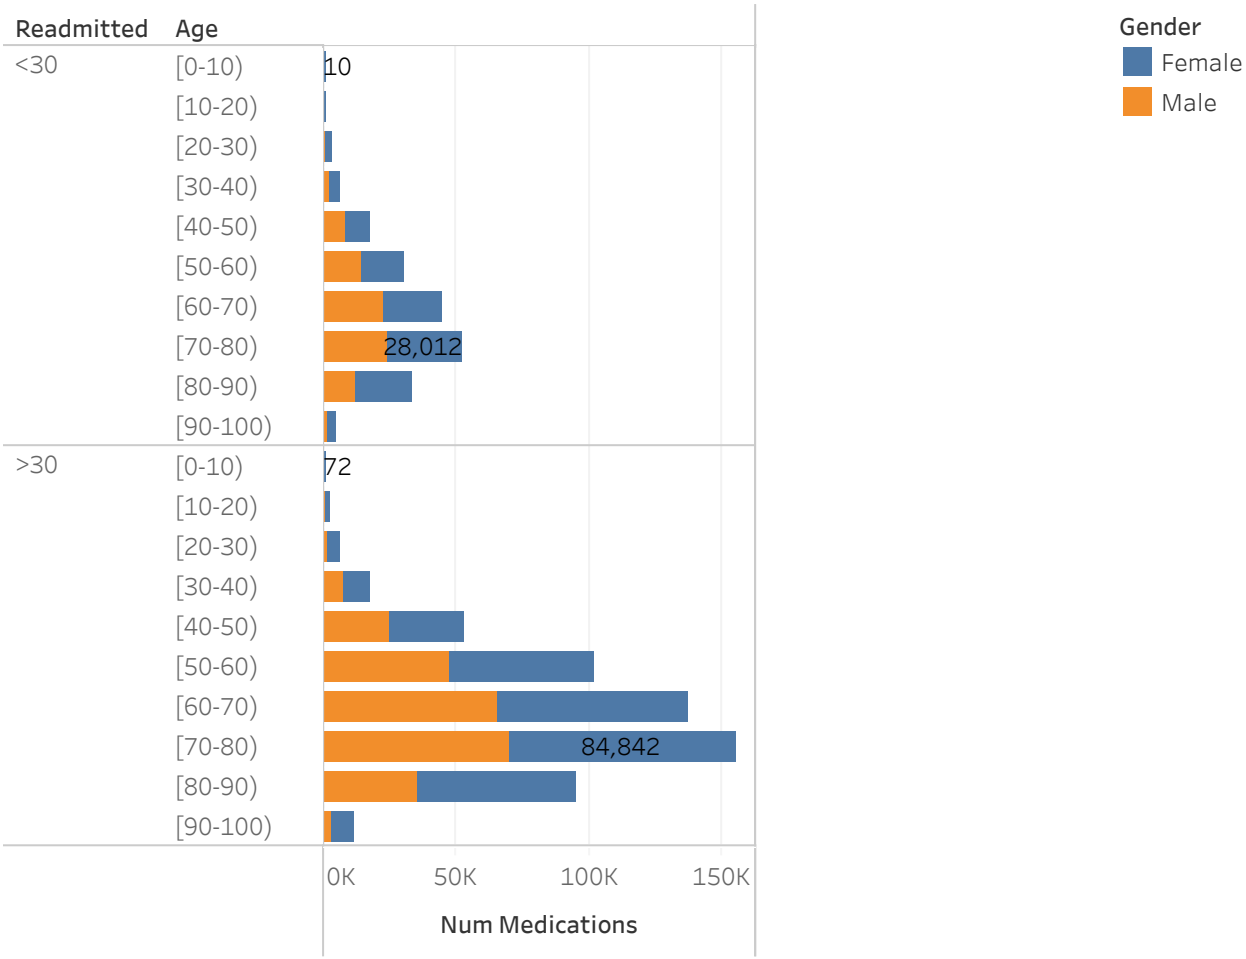
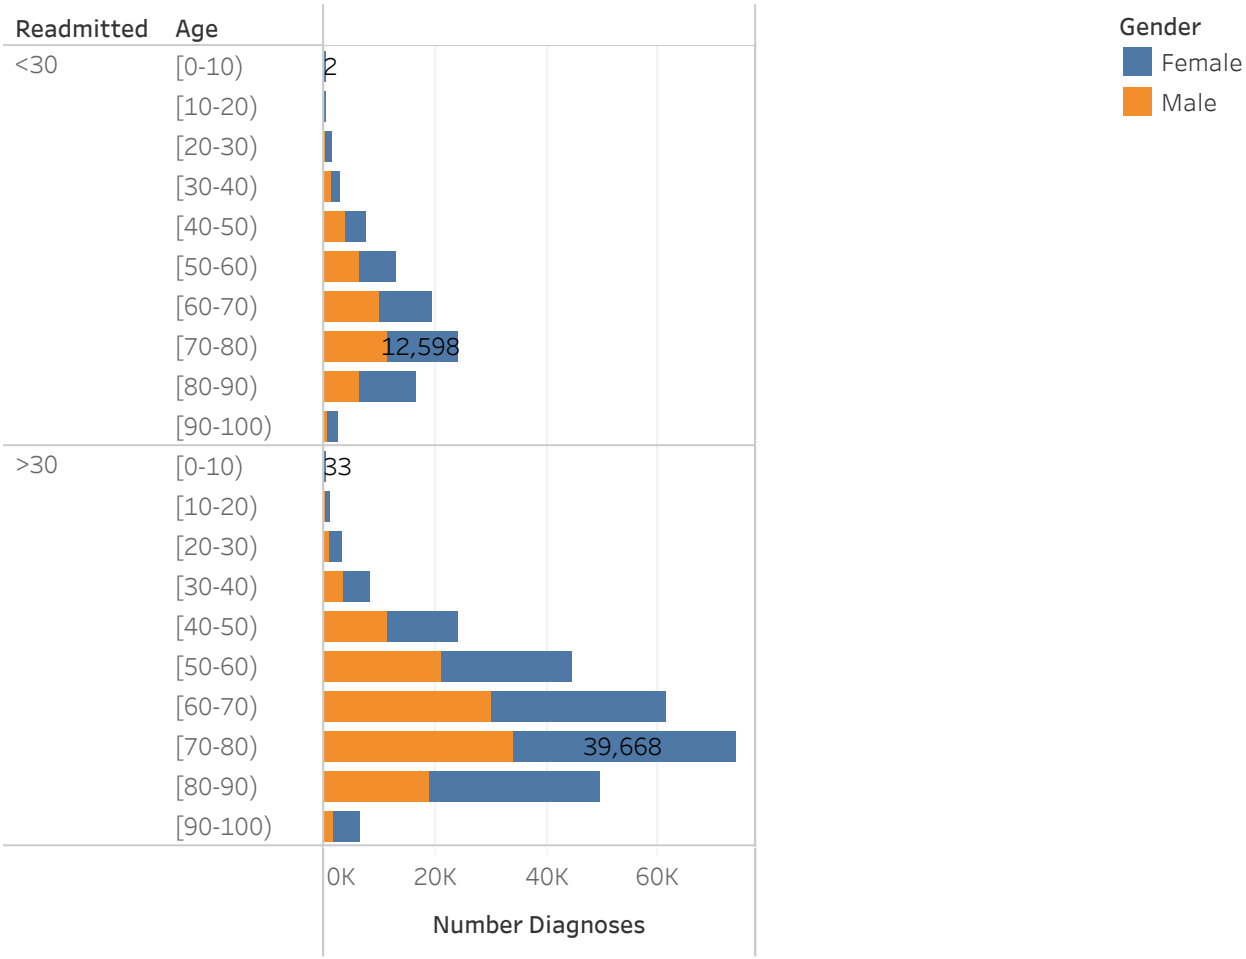
General observation



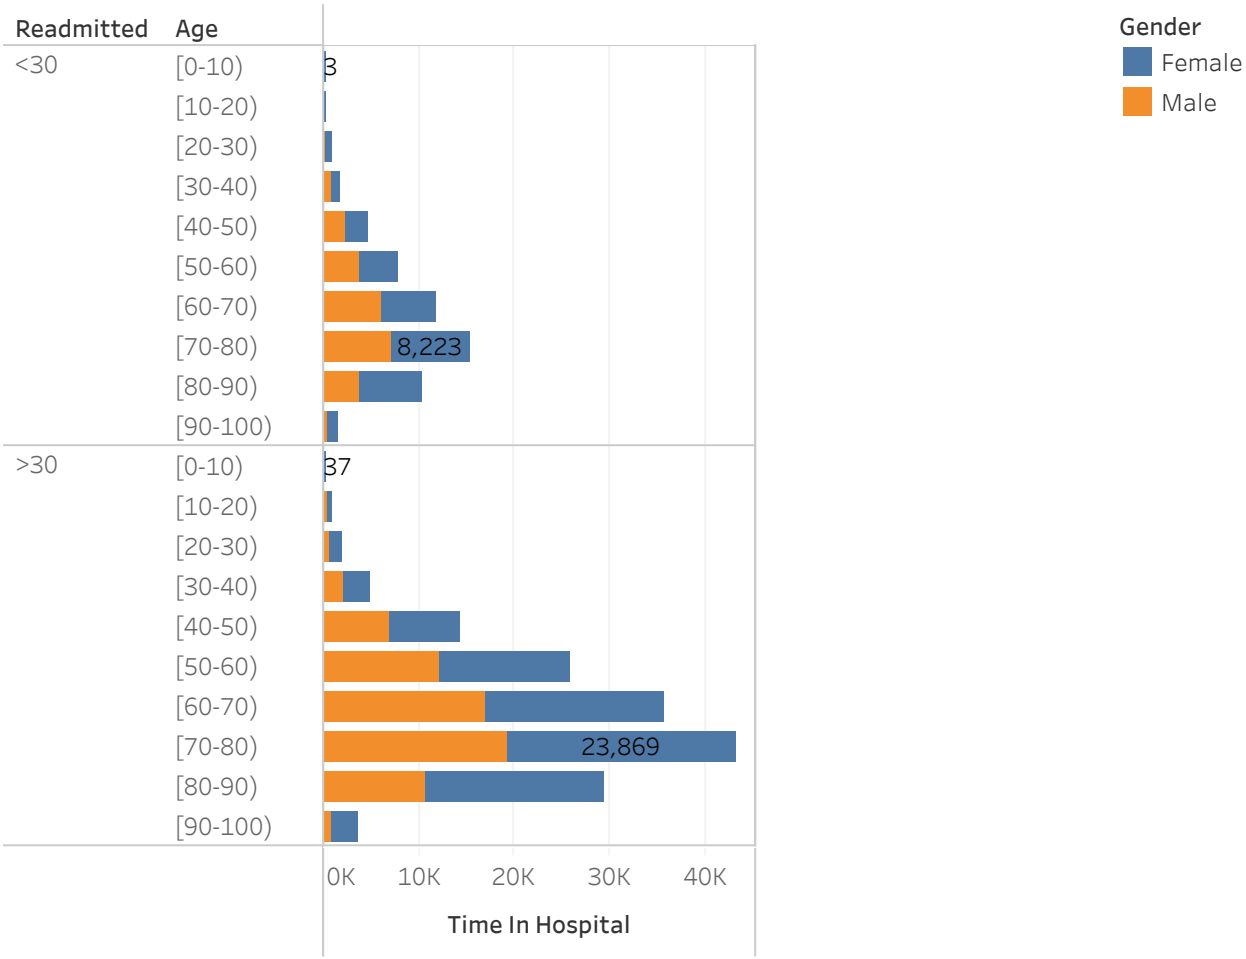
Sum of Num Medications, sum of Number Diagnoses and sum of Time In Hospital for each Age broken down by Readmitted. Color shows details about Gender. The data is filtered on Tolbutamide, which keeps No and Steady. The view is filtered on Gender and Readmitted. The Gender filter keeps Female and Male. The Readmitted filter keeps <30 and >30.

General observation



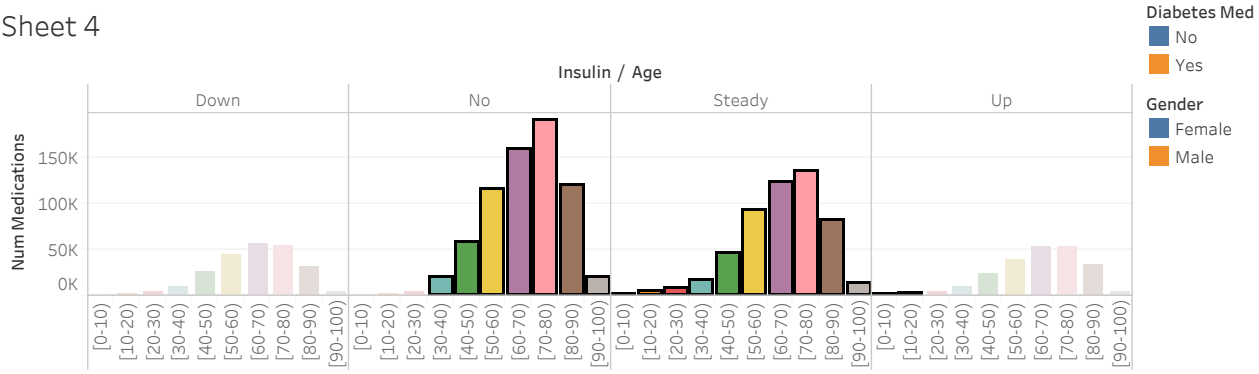
Sum of Num Medications, sum of Number Diagnoses and sum of Time In Hospital for each Age broken down by Readmitted. Color shows details about Gender. The data is filtered on Tolbutamide, which keeps No and Steady. The view is filtered on Gender and Readmitted. The Gender filter keeps Female and Male. The Readmitted filter keeps <30 and >30.

General observation

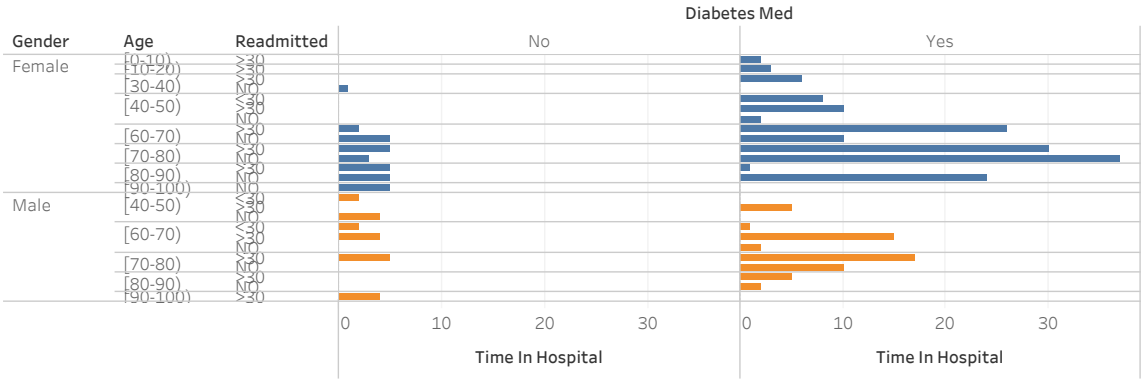


Sum of Num Medications, sum of Number Diagnoses and sum of Time In Hospital for each Age broken down by Readmitted. Color shows details about Gender. The data is filtered on Tolbutamide, which keeps No and Steady. The view is filtered on Gender and Readmitted. The Gender filter keeps Female and Male. The Readmitted filter keeps <30 and >30.

Sheet 4

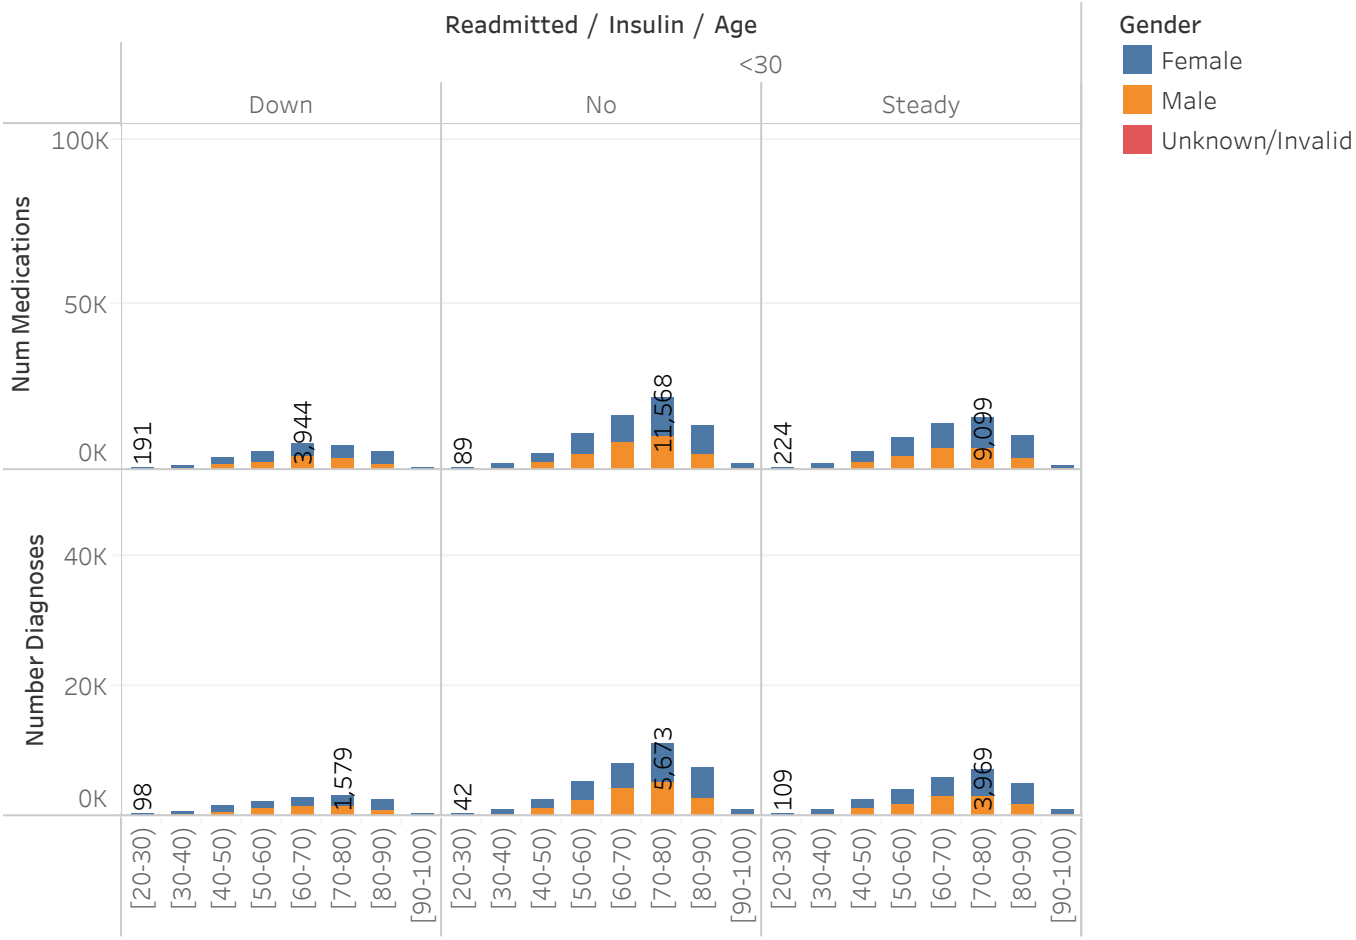


Sheet 5



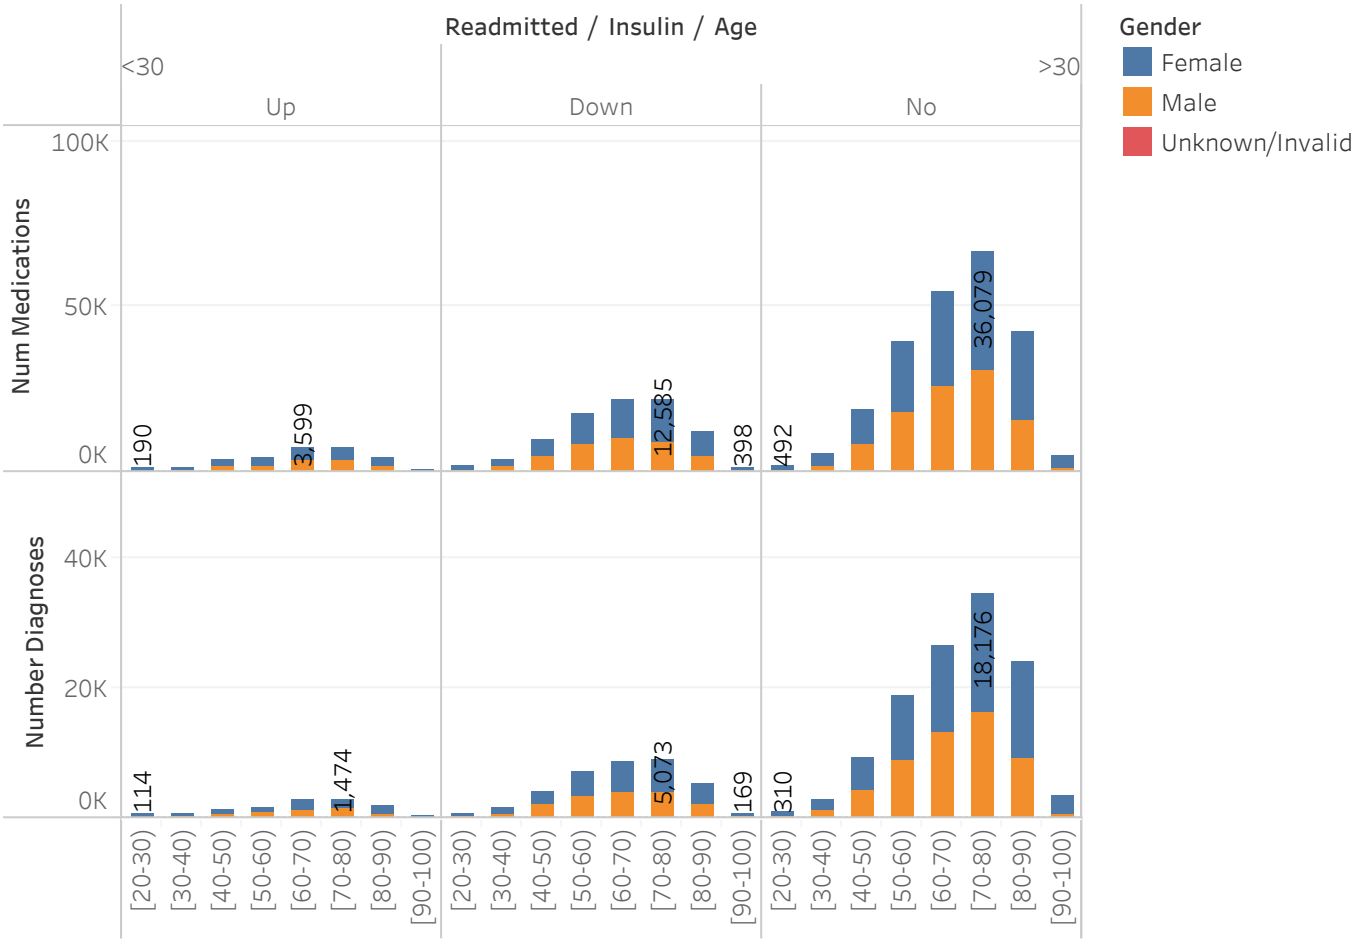
Sheet 3

Sheet 2



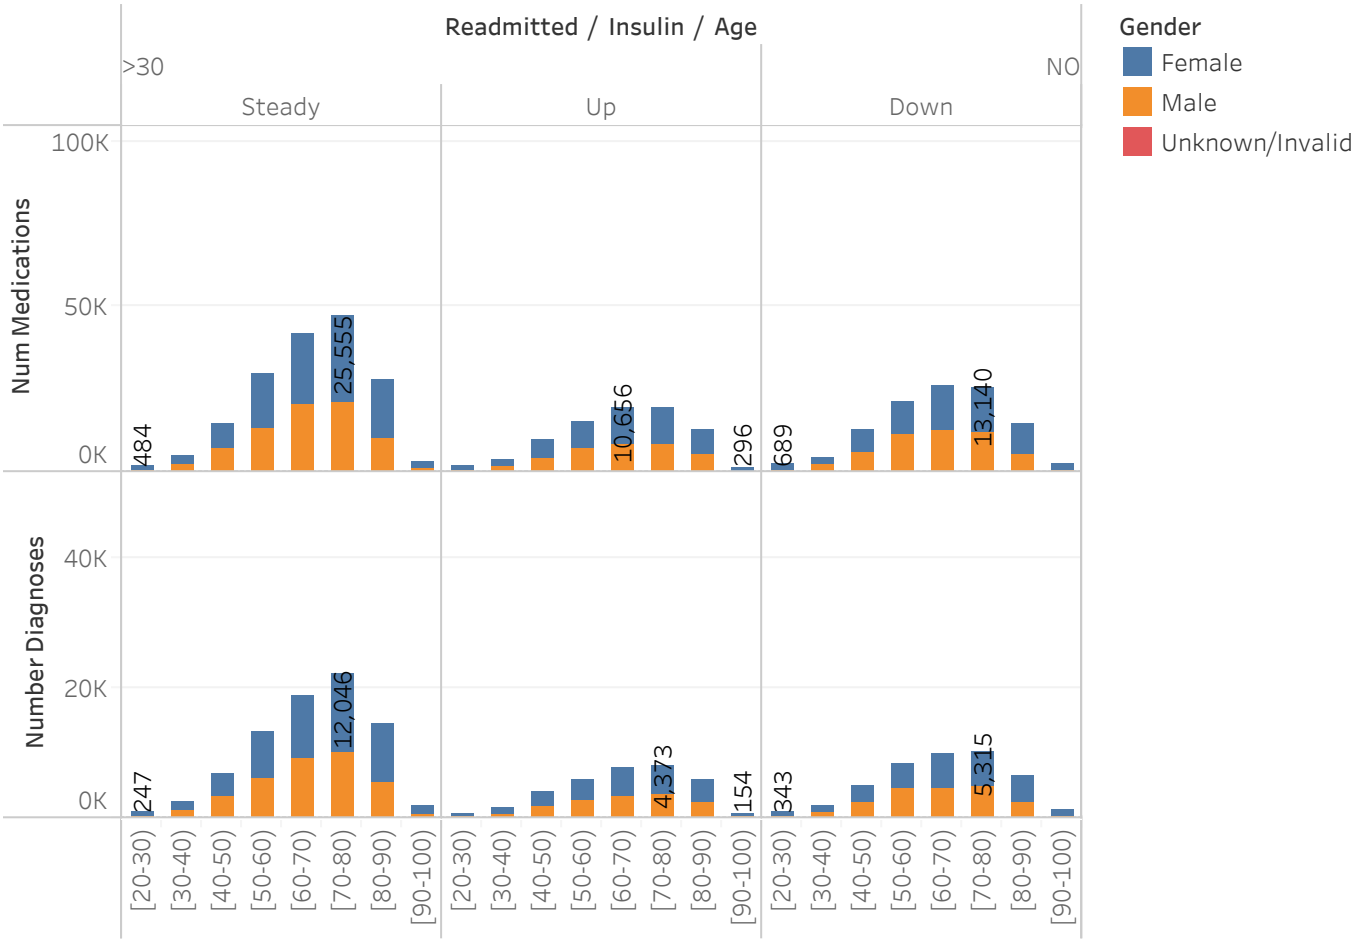
Sum of Num Medications and sum of Number Diagnoses for each Age broken down by Readmitted and Insulin. Color shows details about Gender. The view is filtered on Readmitted and Age. The Readmitted filter keeps <30, >30 and NO. The Age filter excludes [0-10) and [10-20).

Sheet 2



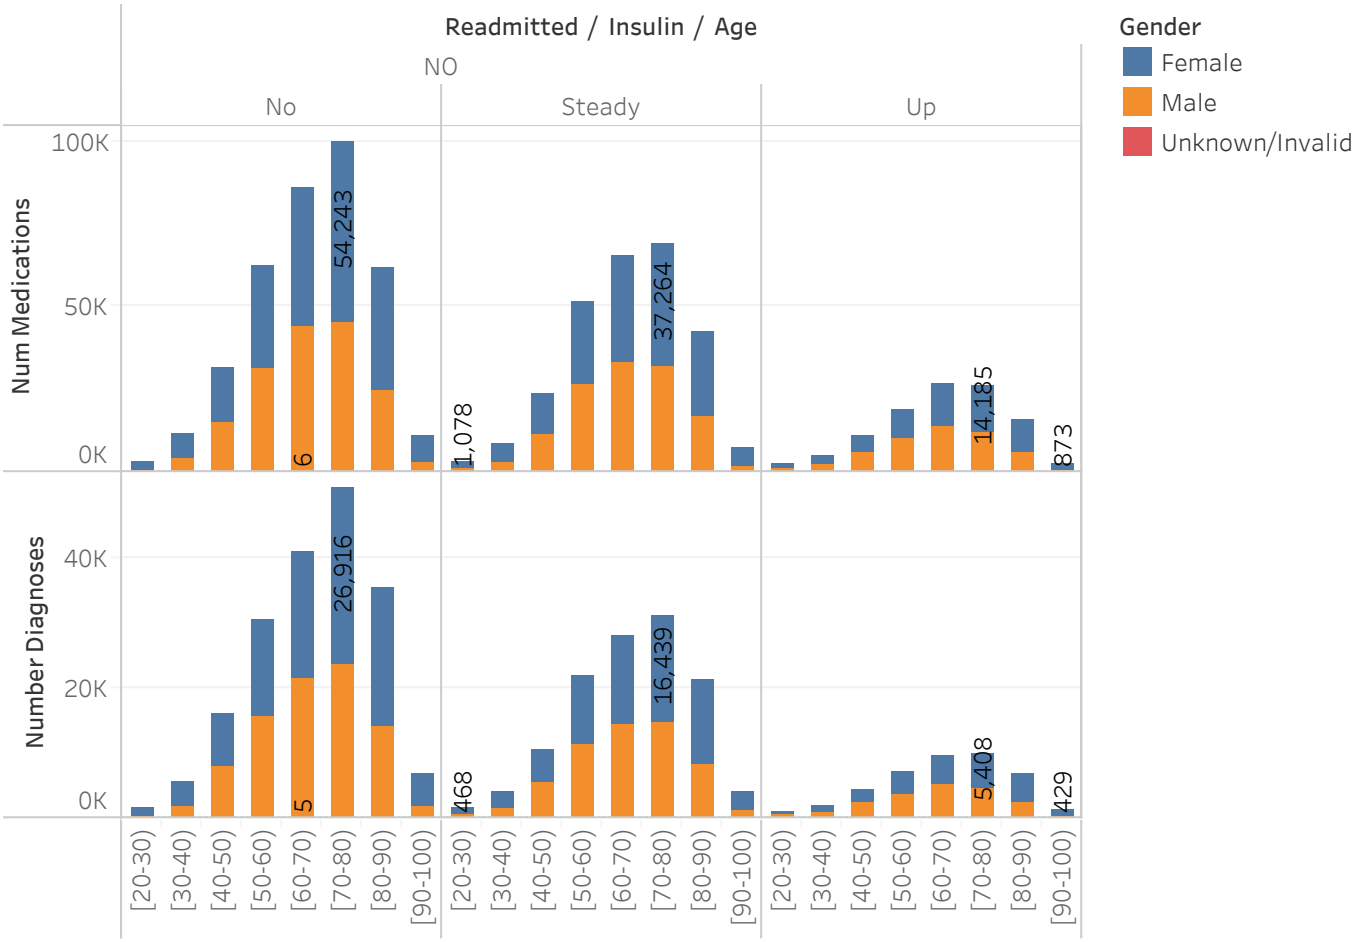
Sum of Num Medications and sum of Number Diagnoses for each Age broken down by Readmitted and Insulin. Color shows details about Gender. The view is filtered on Readmitted and Age. The Readmitted filter keeps <30, >30 and NO. The Age filter excludes [0-10) and [10-20).

Sheet 2



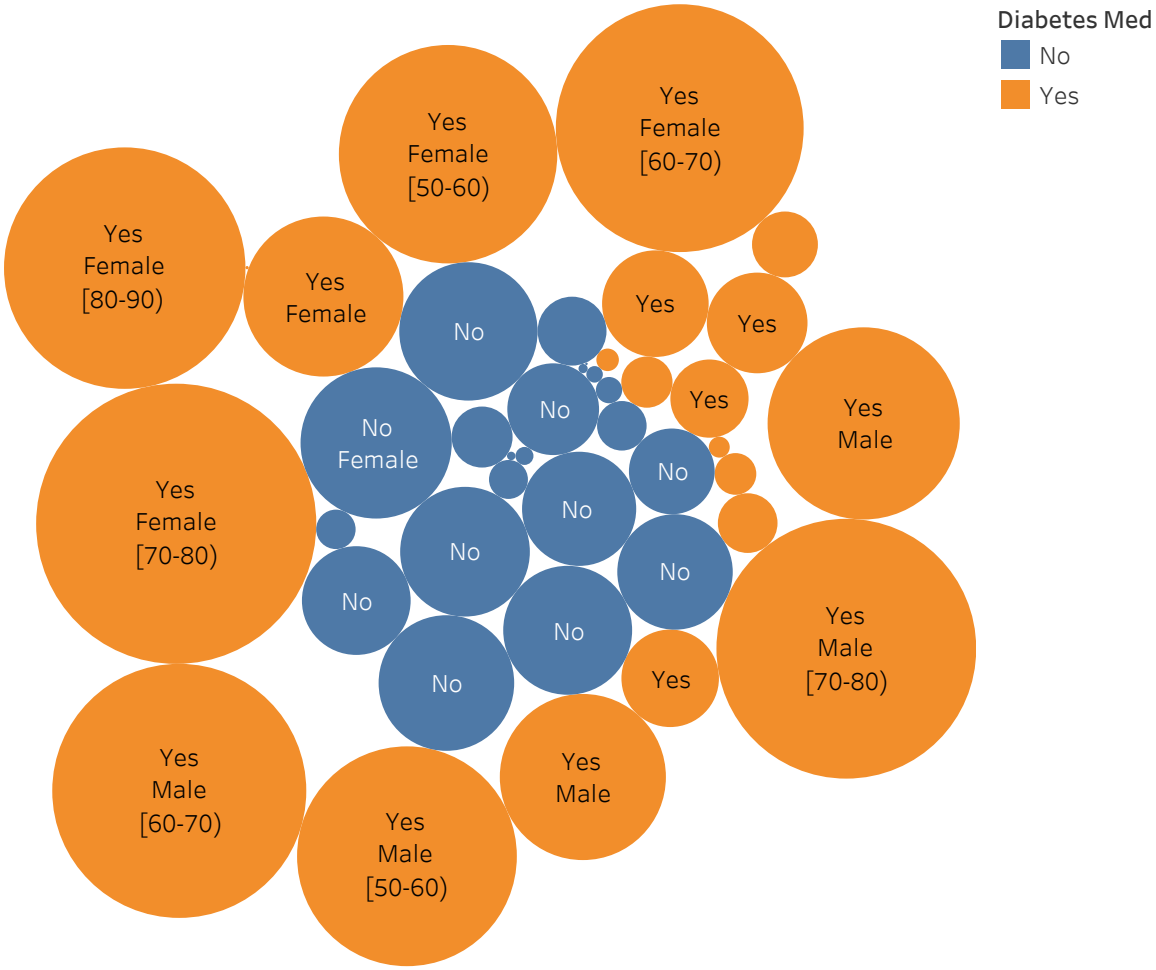
Sum of Num Medications and sum of Number Diagnoses for each Age broken down by Readmitted and Insulin. Color shows details about Gender. The view is filtered on Readmitted and Age. The Readmitted filter keeps <30, >30 and NO. The Age filter excludes [0-10) and [10-20).

Sheet 2



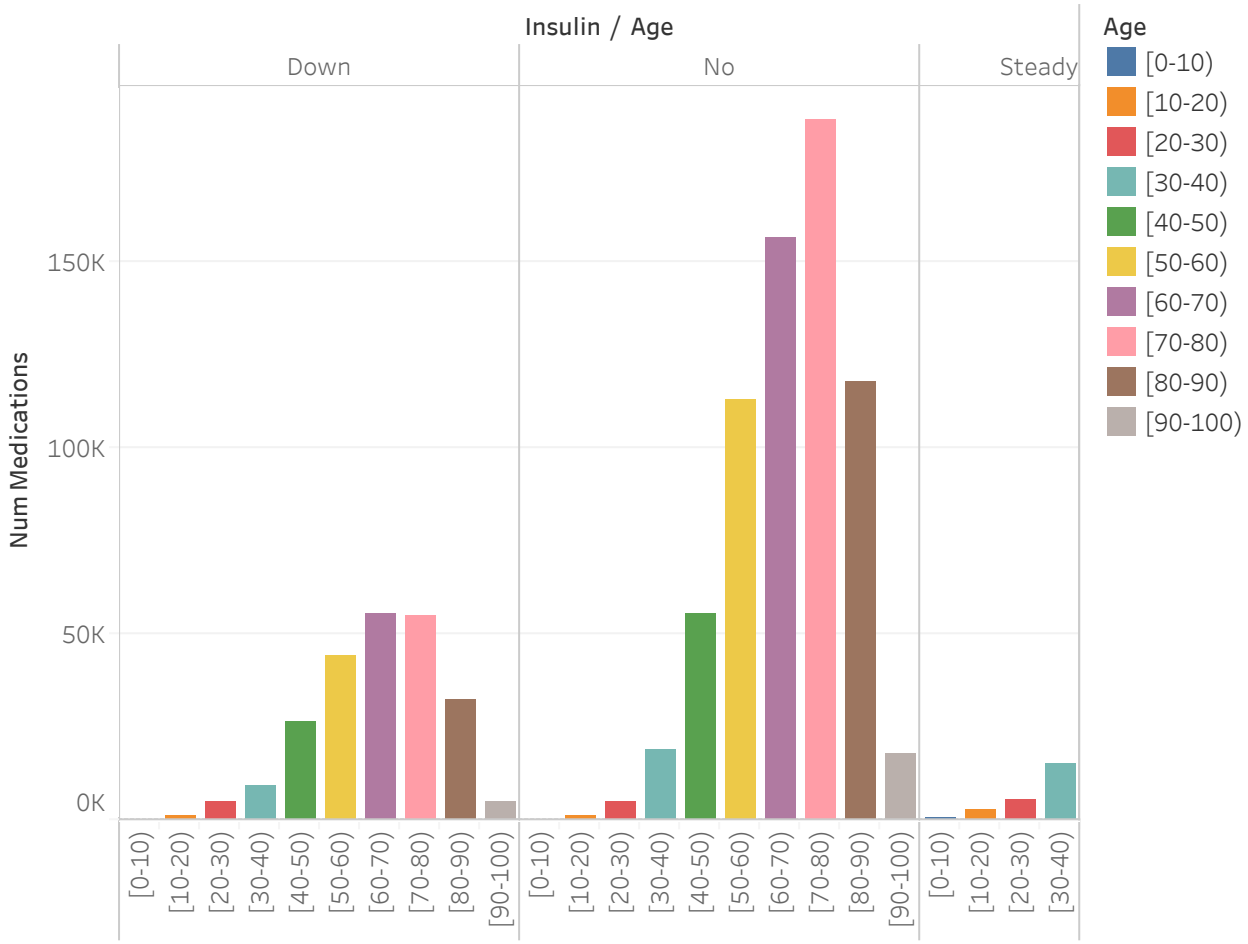
Sum of Num Medications and sum of Number Diagnoses for each Age broken down by Readmitted and Insulin. Color shows details about Gender. The view is filtered on Readmitted and Age. The Readmitted filter keeps <30, >30 and NO. The Age filter excludes [0-10) and [10-20).

Sheet 3



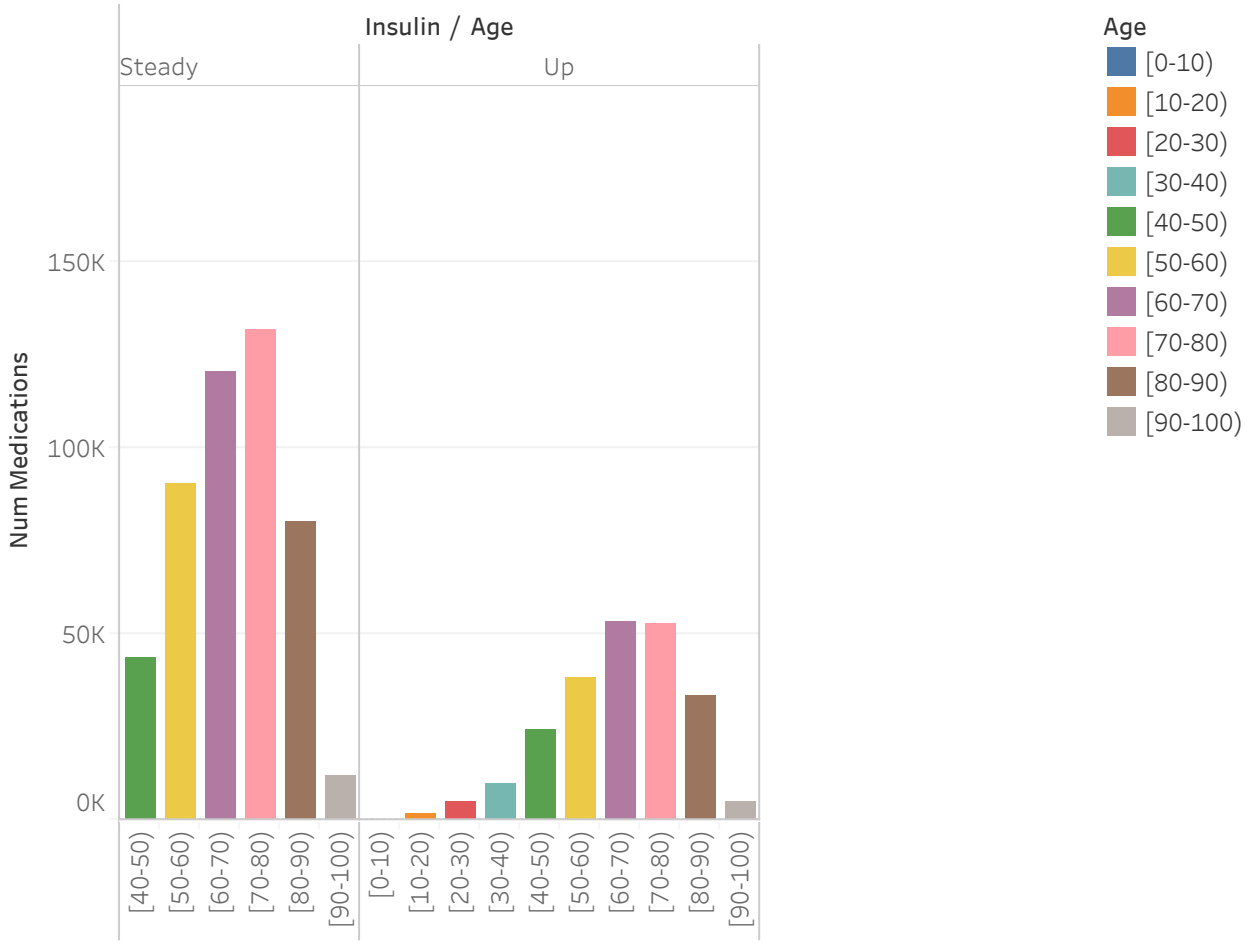
Diabetes Med, Gender and Age. Color shows details about Diabetes Med. Size shows sum of Num Lab Procedures. The marks are labeled by Diabetes Med, Gender and Age.

Sheet 4



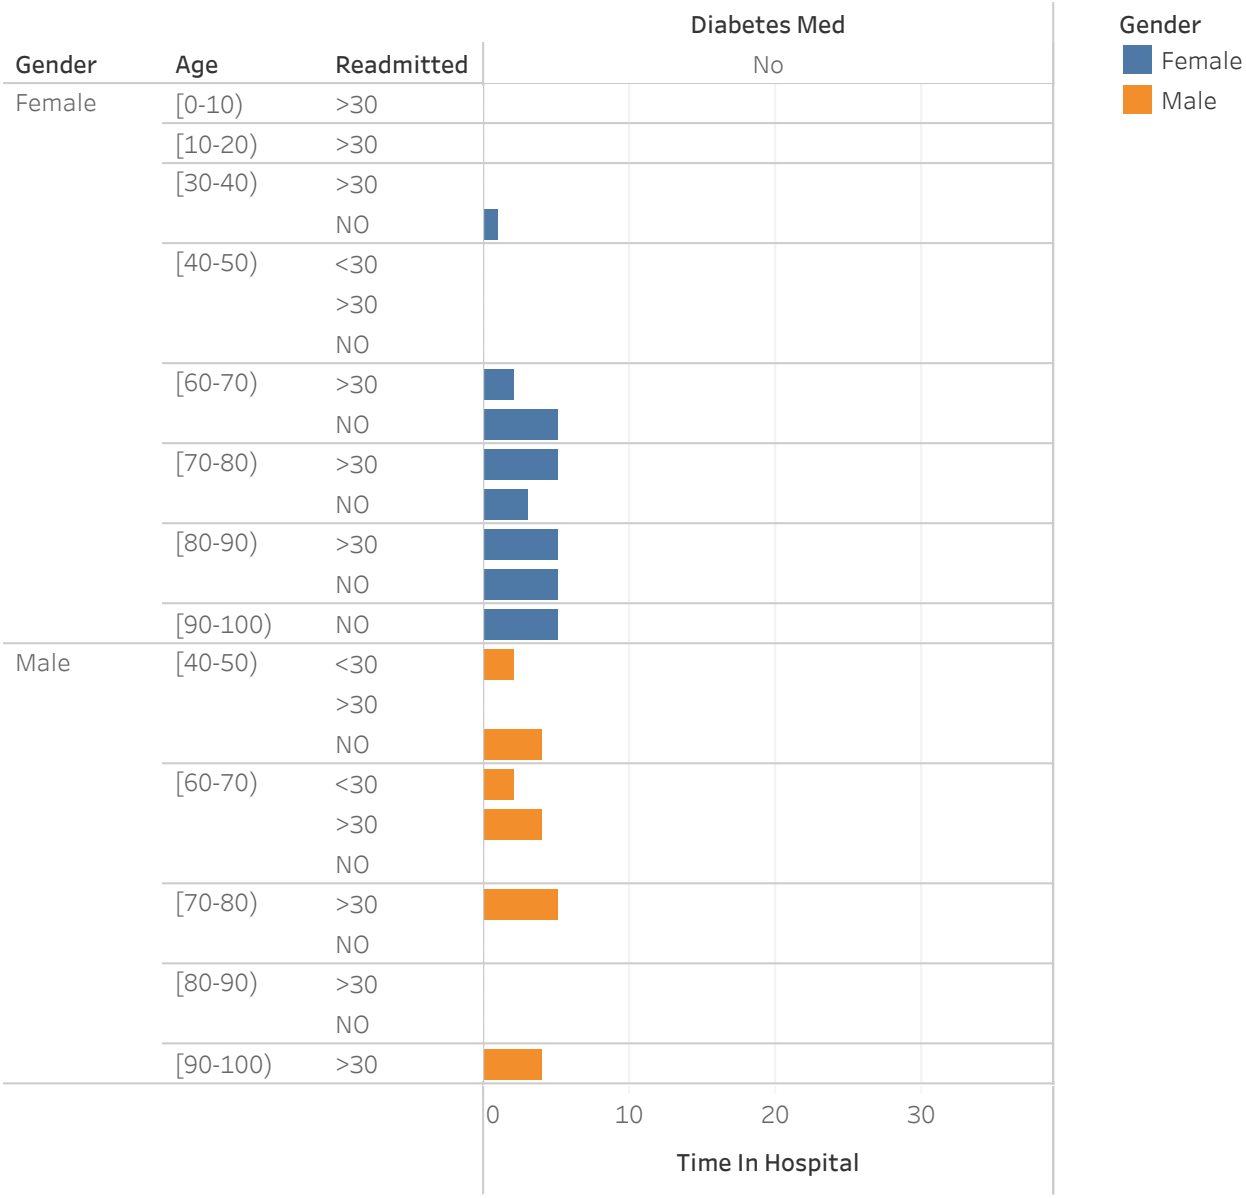
Sum of Num Medications for each Age broken down by Insulin. Color shows details about Age.

Sheet 4



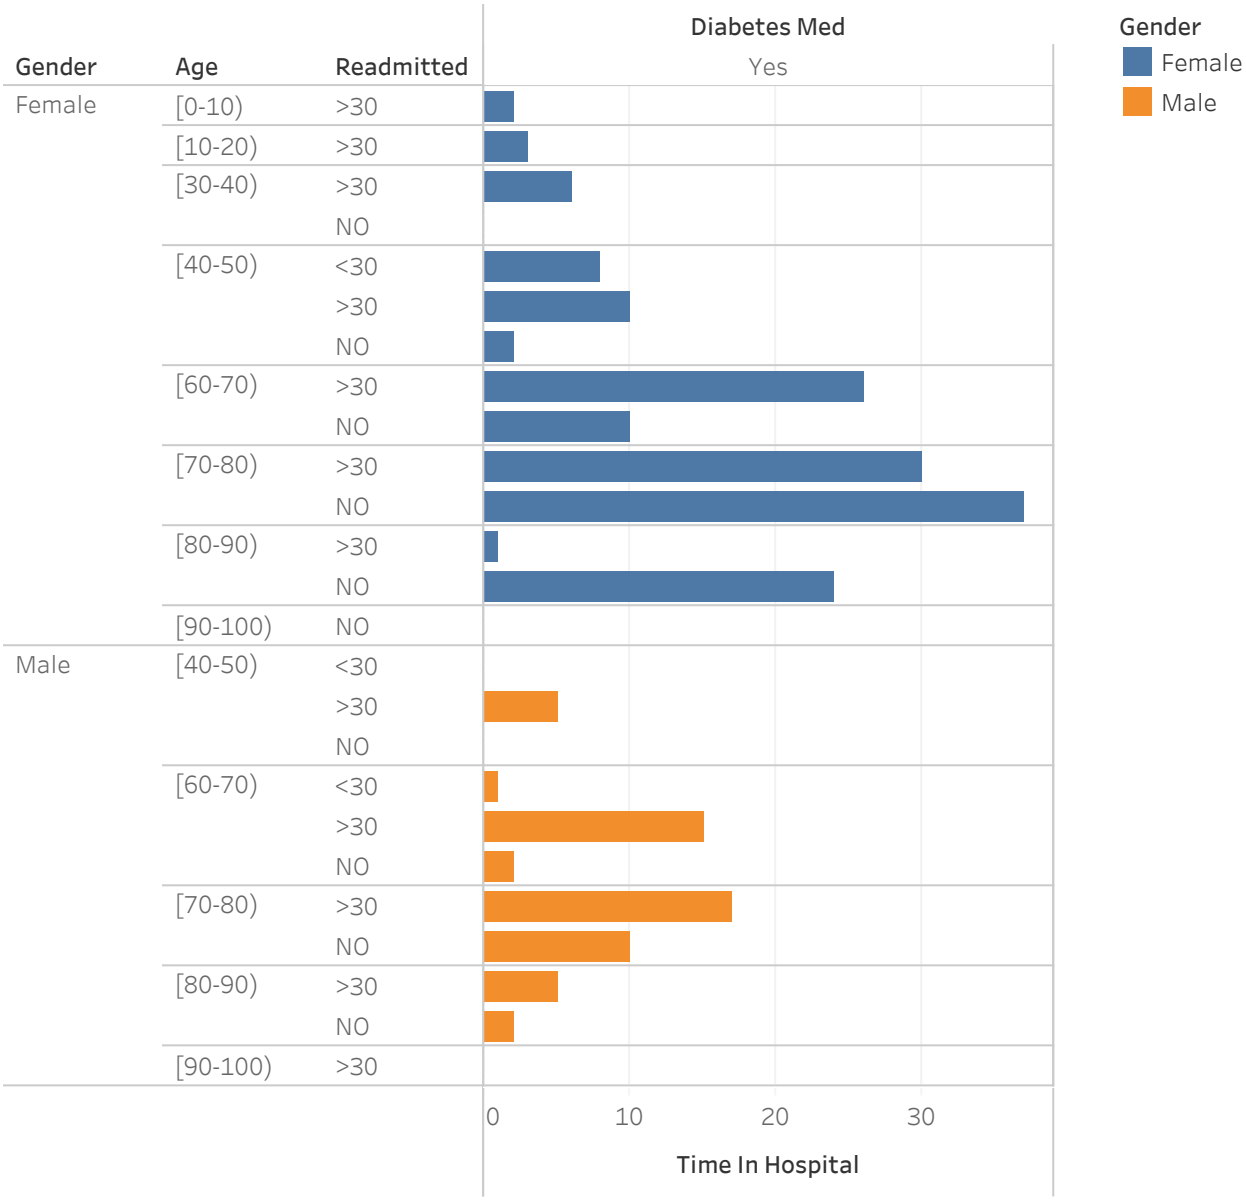
Sum of Num Medications for each Age broken down by Insulin. Color shows details about Age.

Sheet 5



Sum of Time In Hospital for each Readmitted broken down by Diabetes Med vs. Gender and Age. Color shows details about Gender. The data is filtered on Encounter Id, which keeps 80 of 1,01,766 members. The view is filtered on Exclusions (Age,Gender), which keeps 20 members.

Sheet 5



Sum of Time In Hospital for each Readmitted broken down by Diabetes Med vs. Gender and Age. Color shows details about Gender. The data is filtered on Encounter Id, which keeps 80 of 1,01,766 members. The view is filtered on Exclusions (Age,Gender), which keeps 20 members.
